ITALY

> More about F.LLI MORAGLIONE

MORAGLIONE is a well established Italian jewellery brand founded and based since 1922 in Valenza. Almost a century ago, Massimo Moraglione, a craftsman with great passion, started his work as a goldsmith. In 1943 brothers Marco and Pierino cycled the length and breadth of Italy, greatly contributing to the expansion of the fledging Company. Since then, the MORAGLIONE brothers have never looked back

To state that MORAGLIONE is a company with historical ties to Valenza area does not allow you to perceive the many adventures and the emotional commitments the MORAGLIONE brothers endured over the years. Through the war and its aftermath, the boom, times of crisis and market evolution, they overcame each socio-economic transformation with resilience and intelligence.

The result is MORAGLIONE today: a company with a unique imprint, able to merge the quality of style with the perfect selection of precious stones. An impeccable taste that perfectly combines the classic and trend designs....

F.LLI MORAGLIONE

MORAGLIONE

1922
ITALY

The lines carried are full of colours, fashionable and trendy, exclusively created, designed and manufactured in our atelier. They are mostly inspired from nature or organic elements (see Sofia Acorn line) and are completed by precious and natural semi precious stones that replicate incredible colour shades. Every year, at the most exclusive and worldwide jewellery exhibitions, MORAGLIONE 1922 launches its new collections besides the “must have” designs and are always present in our catalogue or featured on socials.

The brand exports all over the world, in particular in Latin America, Europe, Japan, Russia and expanding now towards North America. The lines are well positioned in the most prestigious jewellery boutiques.

Furthermore MORAGLIONE 1922 has also the capacity to “customize” designs for our special Clients, following the inspiration given and creating unique pieces.
