

OLIVA PAOLO

> More about OLIVA PAOLO

We produces from over 40 years fur accessories, with models designed and made entirely in Italy (Fully made in Italy), and with leftovers from previous processes whose stitching gives the final product particular design characteristics. The fact that it is made with assembled parts does not detract from the preciousness of the fur. Our brand "FUR ART" is a result of a lifelong passion for fur and care for details. Each product is wholly handmade following traditional techniques, using machineries as little as possible. FUR ART* is a unique creation, that goes beyond the standards.
