## > More about BRUNO

95 years of activity and four generations engaged have made of BRUNO PARQUET a high qualified and professional company.

BRUNO production offers a wide range of wooden floors, solid or 2/3 layer both in European or exotic wooden species. A variety of options to meet any taste and any interior design need.

The “custom-tailored” collections, handmade by specialized artisans, reveal a peculiar unique character and decorate with style and elegance. Tactile brushed surfaces and matt finishing, combined to the warm and enchanting nuances of woods, fill the rooms with colour and charms.

All BRUNO products are CE labeled and comply with the standards required by the most recent European regulations on wooden floors. Moreover, always devoted to physical and psychological well-being of people and answering to the more and more demanding requests of green building, BRUNO PARQUET proudly presents LegnoAria+, a natural oil finish with 100% solid content and very low VOCs emissions according to the most recent regulations concerning environment and indoor emissions.

Recently, BRUNO has also presented B.TABLE, a brand new collection of handmade table made with single piece solid wooden planks, combined with resin tops and metal supports on demand. Finally, CANNETO boiseries, a wall covering solution matching with all our wooden floors.

Choosing BRUNO means to choose a guaranteed product, the result of a tradition which has made the most of a natural resource such as wood.
