> More about COSTADORO

Costadoro S.p.A. produces high quality roasted coffee and is today one of the most successful industrial companies in northern Italy.

The company has gained a strong reputation around the world and now operates in more than 40 countries (about 55% of our coffee production is for international markets).

The care and attention we use when producing our coffee means that the company (founded in Turin in 1890) has achieved a leading role in international markets and today the Costadoro brand is a firmly established point of reference for the spread of Italian coffee culture around the world.

Costadoro's innovative coffee production process respects a century-long tradition whose marks of distinction are in sourcing, roasting and selection combined with the use of advanced technologies and constant scientific research.

Costadoro has always been committed to pursuing the sustainability of its activities towards the environment and people as reported annually in the Corporate Social Responsibility Report.

As promotional materials we have: website, e commerce, commercial brochures, video and social content. We are present on the platforms of Instagram, facebook, linkedin, youtube. We participate in national and international trade fairs and events.
