> More about ANNARATONE

ANNARATONE s.r.l. was founded in 2014, in a unique and evocative location. Indeed, the Atelier is immersed in the lush green of the Cascina Citerna Park, located in Valenza, the Italian capital of high-end jewellery.

We produce only wire jewellery. This process is distinguished by the extreme care in the design phase, which is the prerequisite for instantly recognizable high-quality products that are extremely soft to the touch. We make unique models that tell a story of design, style and elegance in the most refined handcrafted Valenza-style excellence, the embodiment of "small is beautiful". In our workshop, we produce customized collections that shine for design and originality, as well as elegance and simplicity, combining beauty and a soul full of personality that exude the passion of their designer.

ANNARATONE

ANNARATONE Mounting Creation of collections mounted on behalf of third parties, either based on a client's proposal or on our design inspired by contemporary trends. We offer our customers the option to choose from 4 styles applicable to each stone cut. Our creations are available in 925 sterling silver, platinum and 18K white gold, 3N/5N/6N. ANNARATONE Jewellery Design High-end, ethical and sustainable brand collections suitable for any occasion, which utilize synthetic diamonds, the offspring of modern technologies, combined with traditional processing techniques.

With their beautiful volume effects and refined patterns, these proposals cater to a demanding clientele, which is attentive to modern trends, while also seeking luxury and high-end jewellery at affordable prices.
