Furniture & equipment for residential & commercial spaces

> More about LA BOTTEGA DEL FALEGNAME

LA BOTTEGA DEL FALEGNAME creates unique and original furnishing solutions both for private or public spaces.

LA BOTTEGA DEL FALEGNAME is a place full of creativity and experimentation, born to design and produce unique and original items of furniture, using the best materials. Wood, undoubtedly, is the absolute protagonist but we use also innovative materials. Every kitchen, every living room, wall or piece of furniture is custom-made by definition. Each single client, private or commercial, is a new project which fulfils different needs for a specific place and presents innovative and interesting ideas.

A layout, a sketch tell about both desires and requirements. LA BOTTEGA DEL FALEGNAME will be able to understand ideas and turn them into reality, whether from a professional or someone looking for a piece of furniture for its home. Concepts and materials, especially wood, are combined in our workshop, enhancing our environment.

LA BOTTEGA DEL FALEGNAME

LA BOTTEGA realizes furniture for living room, bathrooms, bedrooms, tables , furnishings but our speciality are the kitchens. Having been thought to fulfil the clients' requirements and to adapt themselves into different places and different uses, our kitchens are unique in design and in materials. They are examples of the attention given to specific details and of the constant research of innovative solutions.

LA BOTTEGA's philosophy is to pay highest care to the environment. BOTTEGA makes use of sustainable varnish and products and above all, respects the traditions of handmade work, heritage of an old but modern way of living.
