> More about Skudomade.it

Skudomade Italia is a brand of excellence in the Made in Italy bespoke men's outerwear sector. Our company produces high quality men's outerwear, entirely made in Italy. The mission and the nature of our business vision were born from the marriage of Italian craftsmanship and the search for a very high quality product in line with environmental and social sustainability. In a world where mass production has never been as popular we have chosen to provide luxury garments while keeping zero stock. The goal of this strategy is to keep the minimum stock necessary for sale. This means that we do not have a warehouse and only produce to order or in very small batches thereby reducing waste and unsold stock.

Our constant research into new technical fabrics matched with natural eco-compatible fibers makes each piece water, wind, thorn and stain proof, resistant to UV rays and breathable.

SKUDOMADE

ITALIA

There are two main collections, the "Luxury - Made to measure" collection, inspired by the outfits already created by Skudomade designers customers could create their own Skudomade by the online configurator, an easy-to-use system that has been designed to allow each jacket to be fully customisable. The result is an Italian overcoat designed to meet and exceed the demands of a specific market segment, offering style, individuality and advanced technology. It is essential for us to create a link between artisan techniques and modern production processes.

The "Vanguard - Sport" collection, created for the world of golf. This outerwear jacket is made with Ing. Loro Piana technical wool and cashmere with a water-wind proof membrane, characterized by a removable lowerback warmer powered by slimline removable battery with waterproof internal switch, and by heat-sealed stitching for total impermeability and an ergonomic sleeve for easy movement. Generous upper and lower front pockets to hold personal items and an electromagnetic-shielded internal pocket to protect your digital devices.
