> More about PASCANIUC LIA PARASCHIVA

Lia Pascaniuc is a registered brand born from a sophisticated yet sustainable artistic vision. The mission is the constant search for new possible synergies and applications between the brand and the highest quality products.

Behind each creation, there is an artistic study that started from the design of the monogram, which later became a brand, to the transposition of one's works onto fabrics.

Precious stoles in refined fabrics (jacquard, pure silk, modal and cotton), as well as luxurious art carpets in New Zealand wool and silk, perfumes and essences with a unique design, are an expression of the collaborations between Lia Pascaniuc and partner companies made in Italy with an international flair.

Her brand combines the vision of the visual artist with the business world and finds versatile applications in luxury products.
