Furniture & equipment for residential & commercial spaces

> More about 1825

Founded in Biella in 1825, Serralunga is the name of the family that has been the creative and entrepreneurial heart of the company for six generations, manufacturing modern outdoor furniture: the 1st in Europe to develop rotational moulding technology, the 1st to introduce the design pot and conceive the out-of-scale pot, the 1st to design the illuminated pot, to exhibit an industrial vase in a museum and the 1st to develop new lacquered technologies utilizing patterns.

Serralunga perpetuates the excellence that has long been associated with the "Made in Italy" label, while at the same time offering new ways of living that allows us to rest and relax with furnishings that ultimately enriches our lives. With its taste for innovation and craftsmanship, Serralunga is renowned for pushing the boundaries of materials, technologies and aesthetics in order to create groundbreaking products that both inspire and delight.
