SASSI PIERO

> More about SASSI PIERO

We are an Italian family-owned manufacturer that operates in the sector of taps since 1955, we are specialised in the production of sanitary fittings that complete the bathroom like columns, shower heads, shower arms as well as in the sheet molding and bending of drawn brass tubes, obtaining a real 100% Made in Italy product, the most important thing of our policy.

We are available to study and develop customized items according to the client's needs, we don't have a minimum order quantity and we have almost our products in stock so the lead time is very short, with a wide range of shapes and dimensions.

The main material used is chrome-plated brass, but we have also shower heads in stainless steel. We can also make other finishings on request.

Abroad we cooperate with local agents and distributors/wholesalers who sell our products on site. The quality of our items enable us to be part of the medium-high market, and of the luxury market in case of customized products for special project, always with competitive prices.

Our raw materials passed the tests for the REACH-ECHA declaration and we are obtaining the ISO 9001 certification. We have also a patent for the inspectable filter of the shower heads that enables to avoid the formation of the limescale and thank to the flow reducer there is a considerable water saving.

Our brand is synonymous of quality for our clients, we have a dedicated customer service with a fast problem solving and we take care of each order from the production process up to the organization of the delivery.

We invite our customers to visit our facility to see directly our state-of-art machinery that respect the environment and our large showroom with the exposition of the latest news.
