

DRAMATIC ICEBERG S.R.L.

> More about DRAMATIC ICEBERG S.R.L.

Dramatic Iceberg is a freezing-cold indie videogame studio from Italy with a big passion for colorful projects.

Our team specializes in developing projects with the Unity Engine the Unreal Engine 5. We have worked in different co-productions for videogames, providing outsourcing for 3D modelling, art/animation, optimization and much more. We can cover all the production needs in-house, by having a wide range of specialist inside our team.

We also create interactive experiences, gamification solutions and serious games. Having also helped other teams with consultancies on developing their game or interactive experience.

Lastly, we have been teaching specializing courses on game development for 5+ years. We teach people the right approach to the development, how to establish a working pipeline, working in team and communicating efficiently.
