> More about FUTURA LAW FIRM SOCIETA TRA AVVOCATI

An innovative legal entity with a scalable and flexible model, aligned with trends and prospects in the legal market, and a brand under which even "non-lawyers" can identify and feel represented.

An entity focused on two areas: new technologies and social impact, sectors that require services provided by experts with skills beyond just legal expertise.

Futura Law Firm is, therefore, a modern space where lawyers, a digital entrepreneur, and a strategy expert collaborate.

Futura is a native speaker of Italian, Spanish, Portuguese, and Turkish, and is fluent in English and French.
