

PHOTOVOX TECHNOLOGY

> More about PHOTOVOX TECHNOLOGY

PHOTOVOX TECHNOLOGY S.r.l. was founded in 2014 and was born from a spin-off of the historic PHOTOVOX S.r.l. leader Company in the manufacturing magnetic sensors and electronic equipment since 1951.

The know-how acquired from two former employees, Mr. Andrea Barbuto and Mr. Giuseppe Licari, allows Photovox Technology S.r.l. to continue to be a leader in the field of magnetic sensors and electronic equipments.

We work with consolidated partners such as ITALIAN HIGHWAY and HIGHWAY GAVIO GROUP. Research, innovation and the use of new technologies are in our DNA. We are the only Italian Company that designs and manufactures digital and Professional magnetic heads entirely in Italy.

Our technology is present in the Cinecittà studios in Rome, in the INA National Audiovisual Institute in Paris and in the Hollywood studios. In 1999 our Video / Audio magnetic heads were used to edit the Oscar- winning film Titanic.

Thanks to the partnership with ELEX, historical Italian Company specialist in identification access equipments, our components are present at CERN in Geneva and in other Italian prestigious Industrial Plants. We can provide spare parts for the main equipment for the analogic editing Audio / Video films 16 - 35mm ¼ and ½ inch DFT, MAGNATECH, STEENBECK, KEM, MWA, PERFECTONE, WESTREX, FOUGEROLLE, 3M and most important REEL TO REEL equipments like STUDER, REVOX, OTARI, TELEFUNKEN moreover we produce magnetic heads for ECHO Device like BINSON, MEAZZI and MONTARBO.

We are a fast and flexible Company really close to the customers' needs. We are able to produce from one customized piece up to thousands of pieces, from the custom product to the standard product.

Our products are sold in the wide world.
