

Rubinetterie Ritmonio

> More about Rubinetterie Ritmonio

Ritmonio is a company characterized by two souls: the factory division, dedicated since over 70 years to the production of safety valves for electric water heaters, brass, stainless steel, aluminum, and copper components; the Bath & Shower division, dedicated to the planning and production of faucets and accessories for the bath area.

By combining craftsmanship, aesthetical research and specific technological competences, Ritmonio gives birth to exclusive products, entirely and genuinely "Made in Italy", which are capable to answer a broad variety of functional needs and as well as care about the environment.

The washbasin and bidet mixers Ritmonioeco are designed to reduce water consumption, even ensuring high comfort. That is why our company has got the environment certification ISO 14001.

The constant attention to the study of forms, materials and design technologies results in solutions that give rise to many furnishing styles and combine elegance with comfort, commercial rationally with homely warmth.

Ritmonio mainly operates in the automotive and smart manufacturing fields.
