> More about POLA E MASSA

Founded in 1978, Pola e Massa specializes in the design and manufacture of equipment for surface treatment in the following processes:

- Deburring/Scrubbing
- Surface roughness process
- Filtering system
- De-oxidation
- Washing
- Decorative pattern on even surface, Satin finishing
- Special treatments (mechanical/chemical)
- Cleaning
- Oil removal/separation

All systems are specifically designed for applications where accuracy is a must.

Pola e Massa can ensure each customer quality service, with efficiency and the best available skills in the market. The company constantly invests significant resources in R&D, thus creating real added value solutions for its customers.

Pola & Massa mainly operates in the aerospace, automotive and smart manufacturing fields.
