ZAMA SOLUTIONS

> More about ZAMA SOLUTIONS

Zama Solutions is a company highly specialised in zinc alloy die-casting of technical components ranging from 0.5 to 1000 grams in weight, using presses with clamping forces from 5 to 200 tonnes.

Among others, we work for these market sectors:

Aesthetic and functional accessories for windows and doors

Mechanical components for the electronics industry

Components for locks, both for the construction and automotive industries

Automotive components for active protection systems

Joining elements for structures made of aluminium profiles

Elements for furniture

Components for small automatic machines

Gears and toothed pulleys

Connectors

Heat sinks

Components for the White Goods Industry

Hinges

The moulds are entirely designed and manufactured in-house

The potential of zamak is many and you too can benefit from it.
