

BANDIANI ENGINEERING S.R.L.

> More about BANDIANI ENGINEERING S.R.L.

Bandiani Engineering aims to innovate low-cost, zero-impact mobility. Leveraging extensive automotive experience, the company develops electric powertrains for classic cars. Their vision is to maintain classic cars for future generations by creating a unique ownership experience. Located in Castelnuovo Scrivia, Italy, the team handcrafts restored, high-performance classic electric cars, ensuring modern safety standards and superior design quality.
