

NUOVA BLANDINO

> More about NUOVA BLANDINO

Our company, BLANDINO, is based in Settimo Torinese and for more than 20 years we are a non-stopping company of Turin, who realises solutions to make easier the daily movements of people with reduced abilities.

From the design to the assembling, the attention to real necessities of the people who will use our products is our starting point for every project. Through a constant investment in quality, technology and innovation, with a typical made in Italy care, this project is transformed in a performing and secure product, able to clearly improve daily life.

Our mission is movimenTO, movement is part of our identity, because for more than 20 years we have been a dynamic company in constant evolution of ideas, technologies and projects, and it is also the aim of what we engage to realise, in other words, to create aids who help people to move in an easier way.
