

SPITECH

> More about SPITECH

Established 2012 in Torino, Italy, as a spinoff of the engineering services studio SPI1966 to which was added the creative Team from Luca Pegolo's design studio.

Thanks to its origins SPITECH is today a company focused on product innovation, able to offer tailor-made solutions and to be seen as an integrated partner capable of supporting its Clients throughout the product development: from creativity to technology innovation.

SPITECH is an engineering design studio specialized in creative solutions for reaching the product innovation through a creative approach that melts the design thinking together with Italian culture.

The studio is made up of Team skilled in product design, engineering, interaction design, brand identity and visual design, combining their expertise towards technology innovation.

SPITECH mainly operates in the design, cleantech and health & wellness fields.
