> More about Sistemi Avanzati Elettronici

Since 1998, SisAv has been active in supplying professional hardware to the Italian market: we offer high-tech solutions and the expertise of a team of engineers highly qualified.

We provide our customers with the best products to increase the quality of their work, in compliance with the highest quality standards. Thanks to our in-house technical department, we offer quick and dedicated all-around support, both at the stage of product selection and for any repairs or upgrades.

We provide solutions for a large variety of industries, from industrial (automations, food and beverage, pharma) to medical but also defence, transportation and aerospace.
