## > More about TEA FABBRICA CALZE ELASTICHE

TEA is a Company specialized since 1934 in production of therapeutic stockings and elastic orthopedic segments. The range of products is really wide: 3 lines of elastic stockings with 2 compression classes, antiembolism stockings and elastic segments ( knee supports, ankle supports, back supports), all classified as Medical Devices CE.

All the manufacturing cycle is entirely produced in TEA's textile plant in Avigiana (Turin) Italy.

The variety of products is created in order to satisfy different requirements and pathologies. The whole production is described in our main website [www.medicaltea.it](http://www.medicaltea.it)

Quality System ISO 9001 and ISO 13485 is certified by Bureau Veritas.

We recently added a new non-medical line of disposable elastic items (socks, balacalvas, ear muff covers...) and we have dedicated a specific website: [www.calzemonouso.it](http://www.calzemonouso.it).
