

Biosfered

> More about Biosfered

Biosfered s.r.l. (www.biosfered.com) is green tech company born from the union of academic skills of researchers of the Plant Physiology Unit of the Department of Life Sciences and Systems Biology of the University of Turin with the entrepreneurial experience of the Arcobaleno Social Cooperative. Biosfered S.r.l. markets extracts containing highly concentrated and standardized bioactive molecules, known for their high commercial value and biological activity. The products are chemically characterized by the University of Turin and titrated with the use of the most advanced analytical mass spectrometry techniques. The reference market is represented by different segments such as: pharmaceutical industry, food supplements, food, cosmetics and animal feed. The proposed offer is based on the quality assurance of the process, focused on high degrees of purity and with a low environmental impact.
