AMNOL - CHIMICA BIOLOGICA - S.R.L.

> ~~More about AMNOL - CHIMICA BIOLOGICA - S.R.L.~~

Born in Novara in 1978, AMNOL chimica Biologica has been present on the pharmaceutical market with an approach of continuous innovation ever since.

A constant growth over the years with an innovative and forward-looking approach to business.

Cutting-edge research for very high quality nutritional health supplements and dermocosmetics. AMNOL is on the market with cutting-edge products for different areas of intervention, thanks to the ongoing work on the development, manufacture and marketing of nutritional health supplements and dermocosmetics.

In addition to the research and production of its key products for Phlebology and Lymphology, AMNOL also proposes Novafeet line for the skin well being.

In 2019 the company extended its structure with the Marketing & communication department, focusing on its core-business in order to supply new information tools to all the departments and end users.
