> More about Dastex Srl

Puff Pet Care is an Italian brand specializing in professional-grade cleaning and hygiene solutions for pet environments. Designed for veterinary clinics, grooming salons, animal hotels, stables, kennels, and industrial laundries, our innovative formulas effectively dissolve pet hair, eliminate odors, and disinfect surfaces without using bleach or leaving chemical residues. Our flagship product, the Puff Pet Hair Dissolver, is the first professional solution that can be used directly in washing machines to remove hair and sanitize laundry. Puff combines the power of active oxygen with eco-friendly ingredients, offering high performance with respect for animals and the environment. With a growing international presence, Puff is the trusted partner for professionals who demand the highest standards of cleanliness and safety.
