> More about PRINCEPS

PRINCEPS s.r.l is a pharmaceutical and herboristic Italian company based in Piasco (North-West of Italy) which belongs to farmaflor network.

Our story starts from a family based company founded in 1904 and today we continue our work sharing the same traditional values of attention to the human health and to the environment sustainability.

We are specialized in food supplements, food for special medical purposes, medical devices and cosmetics.

Our goal is to manufacture all kind of pharmaceutical forms in any dosage and packaging both in its liquid forms (solutions, stick packs, vials, ampoules) and in its solid forms (powders, granules, tablets, capsules, granulated, sachets, etc) and cosmetics (emulsion, milk, soap, etc).

Our mission is to bring our tradition values into future innovation and new technologies maintaining high levels of quality, certified by GMP, ISO 9001:2008 and biological ICEA.

PRINCEPS

The high qualified scientific staff can support you from the birth of the product to its manufacturing and beyond thanks to our in-house R&D (research and development unit), the analysis laboratory and the graphic design department respecting the regulatory requirements of E.U. and U.S.A.

Our products and technologies are unique and patented in Italy and in the E.U. thanks to cooperation with top international research centres and hospital we carry on clinical studies that confirm the effectiveness of our products.

PRINCEPS is growing and expanding internationally reaching more and more clients around the world facing the challenge of the global market.
