> More about VEGETAL-PROGRESS

Vegetal-Progress was founded in 1974 by the biochemist Dr. Giorgio Perotti and still works in the field of natural products for food and cosmetic use.

Most of our products, directly developed in our laboratories, are suitable for athletes, celiacs, vegetarians, vegans, raw vegans, lactose-intolerant people and for those who need to detox and to integrate their bodies with nature.

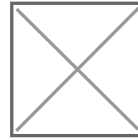

The Italian market recognizes Vegetal-Progress as an innovative company, leader in the production of super-foods, special-foods and food supplements.

Vegetal-Progress believes that quality and innovation are essential strategic enablers for market growth: for this reason we significantly invest in day by day and sets apart thanks to:

- 40-year tradition
- premium quality products
- attentive choice of raw materials
- quality control Addiction.

Vegetal Progress has developed a wide range of healthy natural food and cosmetic products, able to meet the modern consumer various desires.
