> More about ITALECO

Italeco is one of the most active Italian Companies in terms of technical innovation.

Italeco was established in 1993 and, after having acquired a remarkable knowledge in the field of remanufacturing of printer consumables and electronic developments, has been able to quickly develop a wide range of innovative and reliable products.

Italeco is constantly at the search for new technologies and new high-quality products, providing solutions and innovation to the markets of imaging and electronics. Quality is a standard and philosophy of work.

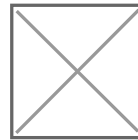

Continuous investments are tangible proof of a business vision without equal. Every customer is a potential partner in the development and research of new solutions and new technologies.

Italeco mainly operates in the smart manufacturing and health & wellness fields.
