> More about ARIMO

ARIMO is specialized in the production of accessories for woolen and worsted spinning as well as finishing mills, specifically flexible and metallic card clothing; raising, velveting and brushing fillets; leather industry, and powder scattering fillets; carrier fillets; sheared and flat needle belts, hand cleaning cards and grinding stones.

The company has an experience of more than 60 years and supplies many customers worldwide both final users and textile machine manufacturers.

The careful study and innovation during the various working phases of the productive cycle and the constant interchange of experience with customers are the basic points of our company philosophy, we can say that our products are "tailor made".

In the 2000's ARIMO bought SCARDASSI, one of the first European flexible card clothing factories.

In this way we acquires the machinery, know-how and staff to make them its driving force in the production of raising and brushing fillets for finishing mills.

ARIMO

ARIMO

After having rationalized the organization and the production lines, the SCARDASSI DIVISION was created within ARIMO, becoming a reference point for the machine manufacturers and final users who are searching for reliable and high-quality card clothing and fillets both in the field of wool and top fine yarns and for the processing of cotton fabrics and synthetic fibers.
