Knitting yarns / Needle-knitting yarns / Weaving yarns

> More about AVIA

Avia specializes in the production of classic and fancy yarns for hand knitting and weaving. A large investment is spent in research: the articles, all medium-high-end, stand out for the study of printing effects, aspects and volumes, as well as for the attention dedicated to the selection of raw materials.

Avia is aware of its responsibility towards the future: Avia is GOTS, GRS, RAF certified and has developed a line of eco-sustainable yarns, ensuring compliance with appropriate ethical and environmental standard along all stages of the supply chain.
