## > More about CPS-TEX

Founded in 1996 by Franco Crosa, Gianni Panozzo & Umberto Solio, C.P.S. TEX year after year gradually grew strong thanks to partners' 30 years experience and employees expertise.

Nowadays we are a dynamic and enterprising company, able to offer a wide range of services and solutions for textile machineries. We provide a full support service to the spinning mills, communicating not only in Italian, English, Spanish, French, but also in Chinese and Russian.

It is crucial for us to establish a long-term cooperation with our customers around the world which is well repaid by our customers satisfaction and trust.

Our technicians are at your disposal worldwide to solve the problems of your spinning machines. Spinning machines and automation "Made to Measure" design aimed to satisfy your production and quality needs. Retrofitting in order to implement production, reduce CO2 emissions, increase workers safety, conform machineries to CE regulations and raise your products quality level.

We are cetificated ISO 9001:2008.
