## > More about STAMPERIA ALICESE

We are sportswear manufacturers since 1973. We are a family business, reaching today its third generation: we are approx. 75 people in Italy, more than 80% women.

We are able to serve a great variety of sports, from the most technical ones (ski, sailing, cycling, rugby) to the most basic ones (team sports, tennis, running, etc).

We are a one stop solution for our client, for all the steps of the development and the bulk production: from pattern making to cutting, from sublimation printing to laser inserts, from stitching till final packaging. We are reputed in the market for our flexibility and the respect of the given word
