> More about BONINO CARDING MACHINES

BONINO CARDING MACHINES has more than 100 years of experience in the manufacturing of cards and machinery lines for the production of textiles and nonwovens. These lines are specifically designed to process virgin and regenerated fibres, suitable either for spinning or for nonwoven, including a range of special products such as surgical cotton and de-haired cashmere. All the machines are designed and specially tailored to meet the customer's requirements with important consultation and planning with BONINO experts. Manufacturing is carried out entirely within its own production department using the most updated technologies. With the wide range of equipment manufactured in-house, plus additional equipment from leading associates, BONINO can offer complete lines and turnkey projects to accommodate customer requirements. The BONINO CARDING MACHINES production range includes: Preparatory Machines (such as bale openers, openers, blending bins, Vertical blenders, Oiling units, Willow cards etc.), Cotton cards, , Woollen and Cashmere carding sets, Nonwoven cards, Cross lappers and drafters, Aerodynamic cards. Nonwoven production wastes recycling machines.
