## > More about DE MARTINI BAYART & TEXTIFIBRA S.P.A.

DBT Fibre is an innovation-driven company specializing in advanced textile materials, with a strong commitment to sustainability, circular economy, and high-performance solutions. It's focused on sliver/tops production for spinning companies and other application. With its division Closeoop, DBT Fibre actively contributes to the development of new products aimed at closing the loop in the textile value chain, promoting recyclability and reuse of high quality focused on noble and technical fibres. The company is also a founding partner of Magnolab, a network of enterprises focused on rapid prototyping, industrial research, and innovation in the textile sector. Through Magnolab, DBT Fibre collaborates with other industrial and academic partners to accelerate technological transfer and foster an open ecosystem of innovation.
