Wedding or high fashion dress

> More about MONTORFANO

Montorfano is the story of our family business, which began in 1986 in Milan thanks to the expertise in the textile sector of Antonella Montorfano and Marco De Vizzi; a couple both in life and at work who then passed on their passion for the fascinating world of craftsmanship to their children Serena and Francesco.

Today we keep the professional family tradition alive in the marvellous landscape of Lago Maggiore, where the new fashion studio of Montorfano is dedicated to conceiving and creating by hand the artistic design best suited to the characteristics of each fabric.

A meticulous research work for the most precious fabrics, for the most precious stones and accessories specific for the creation of formal dresses, allows us to satisfy every sartorial need of ateliers and fashion designers who are looking for quality materials. A perfect combination obtained through expertise, precious fabric, and creativity.
