	Company	Country	Activity description	Website	Year turnover	N employees	Company role	AUTOMATION, ROBOTICS, MANUFACTURING CONTROLS, ARTIFICIAL VISION	SIMULATION, ADDITIVE MANUFACTURING	TESTING, MEASUREMENTS, QUALITY CONTROLS, MAINTENANCE	CHARACTERIZATION OF MATERIALS, METROLOGY	MACHINE TOOLS AND SPECIAL TOOLS, SPECIAL MATERIALS MACHINING	LASER, OPTOELECTRONICS	SUBCONTRACTING - MECHANICS & MATERIAL TRANSFORMATION	SUBCONTRACTING - PLASTICS PROCESSING INDUSTRY	Topics - other	PRODUCTS/PROCESSES you need TO IMPROVE	PRODUCTS/PROCESSES/ SERVICES you ARE LOOKING for	REQUIREMENTS	ADDITIONAL REQUIREMENTS
1	An Hui Trio Smart Equipment Co., Ltd	China	Industrial automation solutions	www.tse-cn.com	00	20	General Manager	Robots for assembling, manufacturing and process control Sensors	Additive manufacturing/3D print (sintering, lamination and fused deposition modelling - FDM)			Robotics Vision systems	Laser and systems	Mechano-welding			new welding technology, automobile tail gas treatment	laser welding, laser cutting, sensor, visual automatic tracking system		
2	ASSOSS EQUIPEMENT	Algeria	Private company founded in 1999 located in the industrial zone of Sidi Bel Abbes. Its main objectives are: Maintain and perpetuate the agricultural equipment manufacturing business in Algeria; becoming a full-liner and leader of agricultural machinery in the Maghreb. Main leader network are former executives of the agricultural machinery sector.	-			General Manager	Cam Machine tools and special tool Production control Robots for assembling, manufacturing and process control	CAD - CAE		Quality control systems						Machining by abrasion Machining by chip removal	Developing new solutions to prototype and test pieces.		MARKETS OF INTEREST : EQUIPMENT DRIVE EQUIPMENT TRANSPORT TILLAGE EQUIPMENT FERTILIZER EQUIPMENT MATERIALS PROCESSING
3	BAIC MOTOR LTD	China	OEM	www.baicmotor.com	00	2000	Overseas Team Manager										Technology tools for Rapid Processing, which includes (soft) clay and (hard) epowood mode; 3D printing for producing the parts (for ex. Door handle, switches); the Color & Trim detecting or measuring equipment or technology, such as color measurement instrument; software for 3D design; technology or equipment for Virtual Reality design or presentation; Tools for 2D creative design creative, such as hand-painted plates, hand-painted scen			
4	BUHLER TECHNOLOGIES GmbH	Germany	Buhler Technologies is the oldest name in the Gas Phase Sample Conditioning Business. Since the mid 1970's, Buhler has been designing and manufacturing sampling system components designed specifically for gas analysis in the challenging environments of process control and environmental compliance. Buhler holds a leadership position in the sample conditioning business worldwide and is currently developing a significant presence in the US.	www.buehler-technologies.com	26	150	Head of purchasing	Sensors						Machining Metal cutting Precision mechanics Surface treatments	Assembly Forming Injection / Microinjection Thermoforming		searching for technical improvement for several own designed parts		ISO 9001 material quality certification 3.1	
5	COGENIA	Morocco	BOMBARDIER SUPPLIER	-	5.3	-		Production control Robots for assembling, manufacturing and process control	Additive manufacturing/3D print (sintering, lamination and fused deposition modelling - FDM)			Machine tools for special materials machining		Surface treatments				manufacturing processes, computer programming, circuit theory, and digital electronics		
6	Cuprum Soluciones Industriales SA de CV	Mexico	Chief engineer dedicated to process optimization of processes, definition of parameters and standards of working with strong focus on improvement and innovation of operational processes and new technologies	cuprumindustrial.com/	0	200	Production										Improvements in reduction of time by changing piece CNC when making the subjection of the piece between each cycle; Update robots for handling parts to close the cycle of die casting process; Development needs of multi-bore automated equipment for machining parts with high precision and reduced cycle time	Improving accuracy of automated equipment to simplify set-up time and increase productivity by reducing changes and adjustments, improve repeatability by reducing the variation of machining processes in automated clamping mechanisms	Warranty policies , letter of credit , financial statements, key customers with projects that have achieved	All related with extruded aluminum and die casting for aluminum

	Company	Country	Activity description	Website	Year turnover	N employees	Company role	AUTOMATION, ROBOTICS, MANUFACTURING CONTROLS, ARTIFICIAL VISION	SIMULATION, ADDITIVE MANUFACTURING	TESTING, MEASUREMENTS, QUALITY CONTROLS, MAINTENANCE	CHARACTERIZATION OF MATERIALS, METROLOGY	MACHINE TOOLS AND SPECIAL TOOLS, SPECIAL MATERIALS MACHINING	LASER, OPTOELECTRONICS	SUBCONTRACTING - MECHANICS & MATERIAL TRANSFORMATION	SUBCONTRACTING - PLASTICS PROCESSING INDUSTRY	Topics - other	PRODUCTS/PROCESSES you need TO IMPROVE	PRODUCTS/PROCESSES/ SERVICES you ARE LOOKING for	REQUIREMENTS	ADDITIONAL REQUIREMENTS	
7	FORD MOTOR COMPANY	Mexico	CAE MANUFACTURING, FEASIBILITY AND PERFORMANCE SIULULATIONS.	FORD.MX	1500	1000	Engineering Supervisor		Additive manufacturing/3D print (sintering, lamination and fused deposition modelling - FDM) CAD - CAE Electronic and electromagnetic simulation Electronic and printed circuit boards Fluid Dynamic Simulation (CFD) FMEA (Failure Mode and Effect Analysis) Immersive virtual reality Multiphysics Simulation PLM (Product Lifecycle Management Rapid manufacturing/prototyping by subtractive technology or chips removal Reverse engineering Simulation with finite element limit analysis (FEA) Virtual testing	Data acquisition	Characterization of materials, surfaces and components Destructive and non-destructive test Mechanical and dimensional measurement Nano-measurement	CAD/CAM Numerical control					STAMPING, PLASTIC INJECTION. INTERESTED ON CAE CORRELATIONS	SPECIAL INTEREST ON INTERESTED ON CAE CORRELATION AND NEW SIMULATION TOOLS	SOFTWARE ADVANTAGES AND CORRELATION STUDIES		
8	Fukuda_Corporation	Japan	We are a Trading Company which imports machine tool equipment and components into Japanes market. We handle items for OEM_and_MRO (maintenance repair overhaul	www.fukudaco.co.jp	54	120	Marketing dpt/Corporate Advertising & Promotion	Machine tools and special tool Mechatronic components Sensors		Maintenance Sensors	Mechanical and dimensional measurement Nano-measurement	Dimensional measurement Robotics Special tools	Marking Sensors				Improvement of productivity, improvement of reliability, reduction in production time etc	We are looking for an innovative product which improves industry capability and/or next generation capabilities	Supplier of precision products, easy to use and convenient		
9	IT Veiv	Iran	IT View founded by Mr. Fariborz Rahmani in 2008 with a view to provide modern e-banking solutions to the Iranian banks and financial institutes. IT View has extensive knowledge and over 20 years of experience in Iranian banking systems. Our main success has been in the implementation and customization of international banking software for local market. We are constantly looking for new solutions for the customers using the latest state of the art software available in the market. We use the best professional experts and consultants to ensure best result.	www.itviewco.com	1	20	Business development Manager		FMEA (Failure Mode and Effect Analysis) PLM (Product Lifecycle Management Reverse engineering	Maintenance Quality control systems			Tools and equipment for diagnostics and measurement								
10	JAC-ITALY DESIGN CENTER S.R.L.	Italia	Product Design Development	www.jac-italy.com/	5	60	General Manager									SIMULATION, ADDITIVE MANUFACTURING/ TESTING, MEASUREMENTS, QUALITY CONTROLS, MAINTENANCE/SUB CONTRACTING - PLASTICS PROCESSING INDUSTRY	Digital Model , Database	Digital model, Simulation, Composite materials	engineering feasibility, Digital Model		
11	JAEOUNG SOLUTEC CO.,LTD	Korea	PLASTIC INJECTION MOLD AND INJECTED PRODUCTS FOR AUTOMOTIVE INDUSTRIAL	www.jsolutec.com	160	450	Overseas Manager	Machine tools and special tool Marking, automatic identification and traceability Production control Robots for assembling, manufacturing and process control Sensors	Additive manufacturing/3D print (sintering, lamination and fused deposition modelling - FDM)		Characterization of materials, surfaces and components	Machine tools for special materials machining Robotics	Automatic identification Laser and optical components Marking Traceability	Precision mechanics Surface treatments	Assembly Injection / Microinjection Moulding Overmoulding Welding		MACHINING PROCESSING TECHNOLOGY FOR HIGH PRECISION PRODUCTS AND SMART FACTORY SYSTEM FOR IMPROVEMENT QUALITY CONTROL	PRECISION MOLD MACHIING PROCESS AND SMART FACTORY SOFTWARE _MOLD SURFACE TREATMENT	MOLD SURFACE TREATMENT TECHNOLOGY, SMART FACTORY SOFTWARE AND SYSTEM

12	JELTECH CO.,LTD.	Korea	DIE CASTING MOLD, DIE CASTINGS, PRESS AND SHEET METAL FOR AUTOMOTIVE INDUSTRIAL	www.jeiltech21.com	36	411	Overseas Manager	Machine tools and special tool Marking, automatic identification and traceability Production control Robots for assembling, manufacturing and process control	Additive manufacturing/3D print (sintering, lamination and fused deposition modelling - FDM) Rapid manufacturing/prototyping by subtractive technology or chips removal	Data acquisition Mechanical and dimensional testing Process control systems Quality control systems Sensors	Quality control systems	Robotics	Automatic identification Marking Sensors	Forming	Forming Hydroforming Machining		MACHINING PROCESSING TECHNOLOGY FOR HIGH PRECISION PRODUCTS AND SMART FACTORY, TESTING	MOLD MACHIING PROCESS AND SMART FACTORY SOFTWARE	SMART FACTORY SOFTWARE AND SYSTEM, TESTING, RELIABILITY AND PROCESS CONTROLS, MOLD MACHINING PROESS		
13	LEONI Wiring Systems Ain Sebaâ SA	Morocco	We are a harness maker, we control all harness before sending and packaging by electric test and camera vision	www.leoni.com	83	2080	INDUSTRY (Export Cablage of Vehicule)			Electric and electronic testing Test benches	Calibration		Sensors Traceability	Mechano-welding	Moulding		We need to improve our electric test and camera	We are looking for camera vision in order to check our products automatically before packaging	Suppliers must already be provided with automotive certifications		
14	MACIMEX	Mexico	Crankshaft manufacturing, automotive metallic components manufacturing	www.macimex.com	107	450	Project Engineering	Machine tools and special tool Marking, automatic identification and traceability Production control Robots for assembling, manufacturing and process control	FMEA (Failure Mode and Effect Analysis) Multiphysics Simulation Rapid manufacturing/prototyping by subtractive technology or chips removal Simulation with finite element limit analysis (FEA)	Acoustic, stress, vibration Mechanical and dimensional testing Process control systems Quality control systems Test benches	Characterization of materials, surfaces and components Destructive and non-destructive test Incident analysis	CAD/CAM Machine tools for special materials machining Numerical control Robotics	Automatic identification Marking Traceability	Foundry Surface treatments			Components assembly with in-process gauging, hardening treatments to metallic surfaces, shaft profile measuring	Components assembly with in-process gauging, hardening treatments to metallic surfaces, shaft profile measuring	ISO 9000, ISO 14000, VDA6.1 or ISO/TS 16949		
15	Micronel Global Engineers Pvt Ltd	India	We are an ISO 9001 Compliant Company Engaged in, Design, Manufacturing, Integration and Support of Technical products and Engineering Equipment for Automotive, Aviation, Propulsion and Space.	www.micronel.net	10	35	Managing Director	Mechatronic components Robots for assembling, manufacturing and process control		Electric and electronic testing			Micro-manufacturing systems	Microtechnics			Machining and Software for Additive manufacturing from aerospace metals like stainless steel, titanium ecc.		Aerospace & Defence background preferred of suppliers		
16	PI MAKINA OTOM.MAK.PAZ AR.IH.ITH.SAN.V E TIC.LTD.STI	Turkey	Gear Production Unit, Heat Treatment, Assembling & Testing, Manufacturing (welding, machining,etc.), Painting, Quality Control	www.pimakina.com.tr	70	585	Management													Electrical vehicle technology Armor technology Tractor project (80-100 hp)	
17	RGC ENGINEERING (PTY) LTD	South Africa	We supply Pre, Post and In-Process measuring equipment and increasingly needs to be integrated; automated in the manufacturing or production line.Responsible for all installations,service and calibration and maintenance of all equipment.Integration of equipment and turn-key projects	www.rgcengineering.co.za	2800	25	Chief Executive Officer	AUTOMATION, ROBOTICS, MANUFACTURING CONTROLS, ARTIFICIAL VISION:									Integration and Automation of equipment	Industrial Automation Systems / Robots / Gantry systems			
18	S&F Inc	Japan	We are importing company dedicated to machine tool, mainly from Italy, Switzerland, France, and Germany. Our supplier are nice organizations and good relationship with us. Good relationship and quick response is key point for us. They supply niche, specific, high quality, only one in the market.	www.sandfinc.co.jp	4,000,000	10	Trade	Machine tools and special tool Mechatronic components Robots for assembling, manufacturing and process control	Additive manufacturing/3D print (sintering, lamination and fused deposition modelling - FDM) FMEA (Failure Mode and Effect Analysis) PLM (Product Lifecycle Management) Rapid manufacturing/prototyping by subtractive technology or chips removal Simulation with finite element limit analysis (FEA)	Virtual testing	Calibration Nano-measurement		Machine tools for special materials machining Robotics Special tools	Micro-manufacturing systems Traceability				In Japanese market, some of customer consider to use only lathe production processing They want to reduce cycle time and also setting time, changing from lathe to machining Center, we want to get such solutions. For example, hobbing unit, slotting unit, thread rolling head, marking press head on lathe.	We want to search solution which can reduce cycle time of matching. And This solution should be longer life time than only other solutions in the market. Almost no maintenance is best for us for such solution.	We are looking for swarf compactor machine. One of our supplier which deal such products closed company. So, we are seeking new supplier.	We are looking for swarf compactor machine. One of our supplier which deal such products closed company. So, we are seeking new supplier.

19	S.I.S TECHNICAL TRADING SERVICES COMPANY LIMITED	Viet Nam	SISTECH Co., Ltd. Is authorized distributor of Siemens Factory Automation and Motion Control at Vietnam. We are Service Partner of Motion Control for warranty, repair inverters. (siemens.com). We are authorized distributor of Banner Engineering USA about sensors, lighting, networks. (bannerengineering.com). We are authorized distributor of MonitorTech USA about level sensors for solids(monitortech.com). We have network partners and customers in all of Vietnam. We supply automation equipment in steel, FB, textile, plastics, cements. Maintenance, diagnostics, upgrade automation systems in industries. Education, programming, diagnostics: PLC, HMI/Scada, networks, inverters.	sistech.com.vn	1.5	15	Director													Searching for good cooperation, development to all Suppliers/Partners looking for a distribution network in Vietnam. We hope to introduce new technologies, products to customers at Vietnam. We have a strong team for sales, technical, research engineers to the factories, customers, OEMs. We looking for temperature/pressure sensors, level sensors, flow meters suppliers in marine We looking for suppliers of electrical equipments, sensors for Textiles & Garment, Steel, Cement, Power Plant.
20	SFMO MOUSSAOUI Sarl	Algeria	Société de Fabrication Machine Outils; Cisaille coupe fer à béton, manuel & électrique; Cisaille coupe tôle divers dimension manuel; Poinçonneuse pour tôle et fer plat manuel & électrique; Tronçonneuse sur bati coupe divers profils électrique; Machine pour le fraisage sur le profils aluminim électrique; Machine pour le foisonnage du verre électrique	www.sfmotools.com	00	120	Tecnical Director- Member of Board										automatise certine machines déjà opérationnel plus le transfère el les déplacements des piece _dun service a un autre			
21	TAN TIEN AUTOMATION TECHNOLOGY CORP - ITD AUTOMATION	Viet Nam	Total Integration Automation: being the System Integrator (Solution Provider) and distributo rof the world's leading electrical, control and instrument manufacturers, ITD Automation, with his well-qualified technical staff and vast experiences, proudly leads in application of total solution,integrated electrical, automatic system and latest technology of controlling as SCADA, DCS, ESD, F&G system and BATCH CONTROL.PRODUCT SUPPLY: Programmable Logic Controller, Low-voltage drive, Process Instruments, Industrial Connectors, Industrial Enclosure, System Climate Control, Wireless Communication	www.tantien.com.vn	3.3	60	Managing Director	Marking, automatic identification and traceability Production control Profibus (Process Field Bus) Robots for assembling, manufacturing and process control Sensors		Acoustic, stress, vibration Certification safety and type approvals Data acquisition Electric and electronic testing Instruments Calibration Maintenance Mechanical and dimensional testing Process control systems Quality control systems Sensors Test benches Virtual testing	Calibration Data acquisition Electronic and electric measurement Quality control systems	Vision systems							- Automation products and Software License for Solution Provider - Instrumentation for Oil & Gas and Industry - Electrical component/ Switchgear from MV to LV	- Authorised Distributions Certificate - Global presence (for support) - Software (for managed system)
