Torino, 16 aprile**

Company	Sito web	Nazione sede legale	Topics	Topics - other	Activity description	PRODUCTS/PROCESSES you need TO IMPROVE	PRODUCTS/PROCESSES/SERVICES you ARE LOOKING for	REQUIREMENTS	ADDITIONAL REQUIREMENTS
<b>Borsodi Muhely Kft.</b>	www.borsodimuhely.hu	Hungary	MACHINE TOOLS for SPECIAL MATERIALS and MULTIFUNCTION (especially for automotive and aerospace industry, titanium and alloys, composite materials, high-speed manufacturing)   NEW MATERIALS (industrial ceramics, composites, carbon fiber and thermoplastic) and associated ASSEMBLY PROCESSES   SURFACE TREATMENTS and FINISHING		Individual and small-series precision machine parts/spare parts manufacturing . Process control and measuring equipment design and manufacturing. Heat treatment and Material testing. Repair and renewal of machine units / Repair and renewal of power spindles . Designing and machining of individual assembly, -testing, -measuring and controlling equipment .	Quality certificate for the Heat Treatment plant (NADCAP)	Raw material suppliers Machining,metal cutting,surface treatment service demand	ISO 9001 ;ISO 14001 Not compulsory	
<b>ELPRESS BV</b>	www.elpress.com	Netherlands			Elpress is the leading manufacturer in the field of industrial hygiene. We focus on delivering total solutions: customer-focused cleaning systems, professionally integrated into your business process.Our strength is delivering total solutions, one partner in the field of industrial hygiene. We have a Passion for Hygiene.		- fittings ( stainless steel ) - stainless steel quick couplings type A and B - fittings pumping machine / reel / spinning wheel stainless steel - valves (various types) - spray guns - pumps - rubber hoses, Teflon, PVC wardrobe / locker, and in stainless steel - motors with transmission perpendicular - Anti folding tires - metering pumps - components for the heating Thermostats, spark plugs, terminals, resistors etc. ...		
<b>Casa costruttrice auto</b>		Italy	ACOUSTICS - STRESS - VIBRATION to measure and analyze acoustics, forces, vibration, stress parameters, etc.   ADDITIVE MANUFACTURING (rapid prototyping and manufacturing, reverse engineering)   ARTIFICIAL VISION to control, inspect, track production; manufacturing and assembly automation, image processing   ASSEMBLY, DISASSEMBLY, INTEGRATION, GLUING TECHNOLOGIES for COMPONENTS of ELECTRICAL VEHICLES (batteries, motors, etc.)   CAD - CAE - CAM for design and mechanical/electronic manufacturing   CALIBRATION laboratories and innovative services for the calibration of instruments   CASTING (simulation to predict warpage, stress, mechanical behavior, microstructures, to streamline processes and moulds)   CERTIFICATION, SAFETY and TYPE-APPROVALS to comply with regulations and to guarantee reliability and safety   DIE CASTING and MELTING PROCESSES IMPROVEMENT   DIMENSIONAL and MECHANICAL MEASUREMENTS and TESTING for metrology labs, manufacturing, testing, maintenance   ELECTRICAL and ELECTRONIC TESTING to test functioning and features of components, vehicles, appliances, to guarantee reliability and saf		Powertrain Development		Services, components and equipment for engine prototyping: simulation softwares, testing equipment and components in small series (<100/per year), engineering and production of prototyping dies, precision mechanical parts. Assembly technologies. New products and technologies concerning engines: diesel and petrol engine control systems, new powertrain technologies, actuators, controls, solutions for weight and emission reduction.		We are interested to meet also start-ups companies working in the above mentioned innovative fields

**Elenco fabbisogni buyer Affidabilità e Tecnologie  
Torino, 16 aprile**

<b>Hentec Oy Ab</b>		Finland	ASSEMBLY, DISASSEMBLY, INTEGRATION, GLUING TECHNOLOGIES for COMPONENTS of ELECTRICAL VEHICLES (batteries, motors, etc.)   CASTING (simulation to predict warpage, stress, mechanical behavior, microstructures, to streamline processes and moulds)   CONSULTING SERVICES about MANUFACTURING PROCESSES REORGANIZATION (FOUNDRY in particular)   MOLDING - METAL CUTTING - WELDING (simulation to streamline processes, to overcome the technological limits, to guarantee the safety of products according to quality)   SURFACE TREATMENTS and FINISHING		Supply chain management for components based on castings and forgings, active in R&D	New ballistic cast materials New heat treatment processes	Castings & forgings: defence, offshore	ISO 9001 Good communication in English language	
<b>IAS INCREASE AVIATION SERVICE LTDA</b>	www.ias.ind.br	Brazil	ACOUSTICS - STRESS - VIBRATION to measure and analyze acoustics, forces, vibration, stress parameters, etc.   ADDITIVE MANUFACTURING (rapid prototyping and manufacturing, reverse engineering)   CAD - CAE - CAM for design and mechanical/electronic manufacturing   CALIBRATION laboratories and innovative services for the calibration of instruments   CERTIFICATION, SAFETY and TYPE-APPROVALS to comply with regulations and to guarantee reliability and safety   DATA ACQUISITION to control vehicles (automobiles, trains, air-crafts, ships), industrial processes, equipment and tools   DIMENSIONAL and MECHANICAL MEASUREMENTS and TESTING for metrology labs, manufacturing, testing, maintenance   ELECTRICAL and ELECTRONIC TESTING to test functioning and features of components, vehicles, appliances, to guarantee reliability and safety   EQUIPMENTS - SENSOR SYSTEMS to control and supervise manufacturing and automation processes, to improve quality and govern processes; actuators for micro-positioning, high.tech electronic boards   MACHINE TOOLS for SPECIAL MATERIALS and MULTIFUNCTION (especially for automotive an		IAS IS A COMPANY SPECIALIZED IN AERONAUTICAL MAINTENANCE FOCUSED IN ELECTROMECHANICAL COMPONENTS LIKE COMPONENTS FROM FUEL, ELECTRICAL, HYDRAULIC AND PNEUMATIC SYSTEM. IAS IS ALSO SPECIALIZED IN GAS TURBINES (AERONAUTIC AND POWER GENERATION). OTHER RELEVANT ACTIVITY PERFORMED BY IAS IS THE EQUIPMENTS AND TEST BENCH DEVELOPMENT TO SUPPORT MAINTENANCE ACTIVITIES.	IAS HAS PLANS TO INCREASE ITS CAPABILITY TO MANUFACTURE EQUIPMENTS AND TEST BENCH. FOR THIS IT'S NECESSARY ADD TO OUR MANUFACTURING PLANT NEW MACHINE TOOLS. ITS ALSO IDENTIFY NEW MATERIAL, EQUIPNET SUPPLIERS, ETC.	MACHINING TOOLS, VIBRATION SENSORS, PRESSURE SENSOR, LIQUID FLOWMETER, GAS FLOWMETER, GENERAL MEASURE EQUIPMENTS, BALANCING MACHINES, SURFACE TREATMENT EQUIPMENTS AND CONSUMEBLES, ETC.	ISO 9000 AND AS 9100	
<b>JK Commerce OY</b>	www.jkcommerce.fi	Finland	CASTING (simulation to predict warpage, stress, mechanical behavior, microstructures, to streamline processes and moulds)   DIE CASTING and MELTING PROCESSES IMPROVEMENT   MOLDING - METAL CUTTING - WELDING (simulation to streamline processes, to overcome the technological limits, to guarantee the safety of products according to quality)   NEW MATERIALS (industrial ceramics, composites, carbon fiber and thermoplastic) and associated ASSEMBLY PROCESSES   PLASTIC MATERIALS: NEW TECHNOLOGIES for MOLDING   SURFACE TREATMENTS and FINISHING		Sale consulting and representations. Commerce with compressed products and tools for production. (die-casting, plastics injection molding)		Compressed mouldings, tools and materials for surface treatments, plastic injection processes, moulds, coatings, die-casting- mould-coatings, metal injection moulding process, rotomoulding machines		our interest is find new clients (suppliers) from Europe. We are now working with some Chinese companys, but they are specialist in high quality and high technology. Our business strategy is not offer any ?cheep? products from China.
<b>LAMAM</b>		Morocco	CALIBRATION laboratories and innovative services for the calibration of instruments   DIMENSIONAL and MECHANICAL MEASUREMENTS and TESTING for metrology labs, manufacturing, testing, maintenance		Metrology laboratory		Calibration , Global presence	Air treatment	

**Elenco fabbisogni buyer Affidabilità e Tecnologie  
Torino, 16 aprile**

<p><b>MEKONG TECHNOLOGIES EQUIPMENT CO., LTD</b></p>	<p>WWW.MEKONGTECH.NET</p>	<p>Viet Nam</p>	<p>ACOUSTICS - STRESS - VIBRATION to measure and analyze acoustics, forces, vibration, stress parameters, etc.   CALIBRATION laboratories and innovative services for the calibration of instruments   ELECTRICAL and ELECTRONIC TESTING to test functioning and features of components, vehicles, appliances, to guarantee reliability and safety   MANUFACTURING SIMULATION for machine tool and manufacturing plants, to increase effectiveness, to save time, to reduce waste materials</p>			<p>Electrical &amp; Electronics can remote connect / control/ monitor via internet , cloud</p>	<p>- Manufacturing simulation (we are looking for solution for our project at university for factory automation); - Hi Voltage testing equipment and component; - Safety equipment for PPE in electrical industry.</p>	<p>Any supplier have product to market over 3 years with ISO 9001 certificated and product suitable to Vietnam humidity.</p>	
<p><b>Michigan Aerospace Manufacturers Association</b></p>	<p>www.michman.org</p>	<p>United States</p>	<p>ADDITIVE MANUFACTURING (rapid prototyping and manufacturing, reverse engineering)   ARTIFICIAL VISION to control, inspect, track production; manufacturing and assembly automation, image processing   ASSEMBLY, DISASSEMBLY, INTEGRATION, GLUING TECHNOLOGIES for COMPONENTS of ELECTRICAL VEHICLES (batteries, motors, etc.)   CASTING (simulation to predict warpage, stress, mechanical behavior, microstructures, to streamline processes and moulds)   CERTIFICATION, SAFETY and TYPE-APPROVALS to comply with regulations and to guarantee reliability and safety   DATA ACQUISITION to control vehicles (automobiles, trains, air-crafts, ships), industrial processes, equipment and tools   ELECTRICAL and ELECTRONIC TESTING to test functioning and features of components, vehicles, appliances, to guarantee reliability and safety   ELECTROMAGNETISM (modelling and simulation electromagnetic phenomena to comply with the regulations and guarantee safety and reliability   EQUIPMENTS - SENSOR SYSTEMS to control and supervise manufacturing and automation processes, to improve quality and govern processes;</p>		<p>The Michigan Aerospace Manufacturers Association (MAMA) is currently comprised of 65 companies active in Aerospace and Defense related supply chains. MAMA companies are interested in identifying new suppliers, materials, technologies, and processes. MAMA companies are active in the manufacturing process from raw materials, build-to-print part fabrication, component assembly, heat treating, coating and finishes, non-destructive testing and recycling. MAMA is currently engaged in the process of expanding member companies to include international capabilities to support US based aerospace and defense manufacturing</p>	<p>Specifically interested in sense and avoidance avionics for unmanned aerial systems. Also interested in composite structures for aerospace applications. Also interested in lightweight armor for aerospace and defense.</p>		<p>AS9100 or equivalent required. Interest in establishing sales/engineering presence in NAFTA.</p>	
<p><b>Multi-Fix B.V.</b></p>	<p>www.multifix.nl</p>	<p>Netherlands</p>	<p>CASTING (simulation to predict warpage, stress, mechanical behavior, microstructures, to streamline processes and moulds)</p>		<p>Trading Company in Fasteners and Special products like CNC turning/milling parts___ - Construction parts, like frames and welded part_ casting parts etc.</p>	<p>More partners for outsourcing products as mentioned above who are able to provide the items within 3-5 weeks</p>	<p>Subcontracting CNC turning/milling parts / producers of construction parts for example steel frames and welded parts ? producers of casting parts incl. machining of these parts./ Especially in steel and stainless steel material.</p>	<p>Should be able to provide 3.1 certificates</p>	
<p><b>ORBITAL ENGENHARIA LTDA</b></p>	<p>WWW.ORBITALENGENHARIA.COM.BR</p>	<p>Brazil</p>	<p>ADDITIVE MANUFACTURING (rapid prototyping and manufacturing, reverse engineering)   CAD - CAE - CAM for design and mechanical/electronic manufacturing   CASTING (simulation to predict warpage, stress, mechanical behavior, microstructures, to streamline processes and moulds)   CRASH and FINITE ELEMENTS for the realistic evaluation of the mechanical behavior of complex systems, to guarantee the safety through the impact simulation   FLUID DYNAMICS and MULTIPHYSICS (modelling to study complex phenomena in vehicles, engines, semiconductors, accumulators, plasma, fuel cells, energy industry, etc.)   MACHINE TOOLS for SPECIAL MATERIALS and MULTIFUNCTION (especially for automotive and aerospace industry, titanium and alloys, composite materials, high-speed manufacturing)   SURFACE TREATMENTS and FINISHING</p>		<p>ORBITAL ENGENHARIA IS DISTINED TO THE DEVELOPMENT OF SPECIAL PROJECTS INCLUDING: ELECTRONICAL AND MECHANICAL DEVICES, BATTERIES MODULES, POWER SUPPLY MANAGEMENT, PROGRAMABLE TIMER, DATALOGGER, ON BOARD COMPUTER, LIQUID PROPELANT ROCKET ENGINE, ROCKET ENGINE FEED SYSTEM AND SOLAR GENERATOR FOR SPACE APPLICATION.</p>	<p>NEW MATERIALS FOR A CRIOGENIC PROPELANT TANK PRESSURIZED WITH 300 BAR OF NITROGEN. DEVELOP A PROCESS TO REPLACE THE BAZING PROCESS OF ASSEMBLING OF THE INJECTORS INTO THE HEAD OF ROCKET ENGINE (MICRO WELDING).</p>	<p>LIGHT WEIGHT VALVES FOR A LIQUID ENGINE ROCKET FEED SYSTEM. LIGHT WEIGHT PRESSURE REGULATOR FOR 300 BAR UP TO 30 BAR</p>	<p>THE ONLY REQUIREMENT FOR A SUPPLIER FOR DEVELOPMENT IS PARTNERSHIP OF THE OWNING OF THE RIGHTS.</p>

<b>PT LEH INDUSTRI</b>		Indonesia							
<b>Rockwell Automation</b>		France	EQUIPMENTS - SENSOR SYSTEMS to control and supervise manufacturing and automation processes, to improve quality and govern processes; actuators for micro-positioning, high.tech electronic boards   OTHER	Coils, Connectors, Circuit Protection, Bus Bars, Non ferrous metal alloys, Electrical band, Brass metals, other raw materials	Rockwell Automation, the world's largest company dedicated to industrial automation, makes its customers more productive and the world more sustainable. Throughout the world, our flagship Allen-Bradley® and Rockwell Software® product brands are recognized for innovation and excellence.	No process improvement required	Coils, Connectors, Circuit Protection, Bus Bars, Non ferrous metal alloys, Electrical band, Brass metals, other raw materials	Proven experience with Industrial Automation major companies (different than automobile/car industry), Quality Certificate, English language skills at Engineering and R&D level, cost saving programs	
<b>ROZTOCZE Zakad Usugowo - Produkcyjny</b>	www.roztocze-rst.com.pl	Poland	ACOUSTICS - STRESS - VIBRATION to measure and analyze acoustics, forces, vibration, stress parameters, etc.   ADDITIVE MANUFACTURING (rapid prototyping and manufacturing, reverse engineering)   ARTIFICIAL VISION to control, inspect, track production; manufacturing and assembly automation, image processing   CAD - CAE - CAM for design and mechanical/electronic manufacturing   CALIBRATION laboratories and innovative services for the calibration of instruments   CASTING (simulation to predict warpage, stress, mechanical behavior, microstructures, to streamline processes and moulds)   CERTIFICATION, SAFETY and TYPE-APPROVALS to comply with regulations and to guarantee reliability and safety   CONSULTING SERVICES about MANUFACTURING PROCESSES REORGANIZATION (FOUNDRY in particular)   DIE CASTING and MELTING PROCESSES IMPROVEMENT   DIMENSIONAL and MECHANICAL MEASUREMENTS and TESTING for metrology labs, manufacturing, testing, maintenance   EQUIPMENTS - SENSOR SYSTEMS to control and supervise manufacturing and automation processes, to improve quality and govern processes; actuators for micro-positioning, high.tech electronic boards   LASER		RST ROZTOCZE specializes in production of locks, hinges, screw clamps, locking system and accessories for electric switchboards.	Reduction of noise in production processes; reduction of noise in the production plant, die casting and melting processes improvement.			
<b>SAMMITR MOTORS MANUFACTURING PUBLIC COMPANY LIMITED</b>	WWW.SAMMITR.COM	Thailand			AUTOPART: STAMPING DIE, ASSEMBLY JIG, PRESS PART, STEEL CONOPY LOGISTIC SULTION : DUMPERS & TRAILERS , AXLE , HYDRAULIC SYSTEM FOR DUMP TRUCK. NGV. VEHICLE AND EQUIPMENT: NGV TRUCK, MUTI PURPOSE TRUCK.	- New Manufacturing system about Automate system for mass Production; - Robot Manufacturing for Industrial, Process control; - Welding Technology.	- New Material for design to cost of Product; Special steel, alloys ele; - Simulation Manufacturing Software; Testing Metrology for New Product		
<b>SAVRONIK</b>	www.savronik.com.tr	Turkey	ADDITIVE MANUFACTURING (rapid prototyping and manufacturing, reverse engineering)   ASSEMBLY, DISASSEMBLY, INTEGRATION, GLUING TECHNOLOGIES for COMPONENTS of ELECTRICAL VEHICLES (batteries, motors, etc.)   DATA ACQUISITION to control vehicles (automobiles, trains, air-crafts, ships), industrial processes, equipment and tools   EQUIPMENTS - SENSOR SYSTEMS to control and supervise manufacturing and automation processes, to improve quality and govern processes; actuators for micro-positioning, high.tech electronic boards   OTHER	Train and railroad simulators Shooting training simulators Online Train Positioning Electronic equipment of Unmanned Air Vehicle (UAV) Data Link systems	Defence, Transportation, Information Systems		Partnership in Horizon 2020 projects for railroad applications

<b>Spijkstaal elektro b.v.</b>	www.spijkstaal.nl	Netherlands	ASSEMBLY, DISASSEMBLY, INTEGRATION, GLUING TECHNOLOGIES for COMPONENTS of ELECTRICAL VEHICLES (batteries, motors, etc.)   DATA ACQUISITION to control vehicles (automobiles, trains, air-crafts, ships), industrial processes, equipment and tools   OTHER	Complete subassemblies for example, axles, cabins, dashboards.	Designing, building and sales of electrical industrial vehicles.	Less own production, more outsourcing.	Complete axles, standard cabins to build on our vehicles, equipped dashboards	If ISO 9001 certified it will have an advantage.	To be able to build a steady and strategic relationship with our company.
<b>VATIS</b>	www.vatis.be	Belgium	MACHINE TOOLS for SPECIAL MATERIALS and MULTIFUNCTION (especially for automotive and aerospace industry, titanium and alloys, composite materials, high-speed manufacturing)   NANOTECHNOLOGIES - PLASMA (solutions and technologies for special applications on surfaces)   NEW MATERIALS (industrial ceramics, composites, carbon fiber and thermoplastic) and associated ASSEMBLY PROCESSES   OTHER   SURFACE TREATMENTS and FINISHING	Hard metals Sintered tungsten carbide Titanium carbide	Since more than 25 years, Vatis is specialized in surface technology and tribology in order to combat problems such as erosion, corrosion, abrasion, chemical attack, fretting and so on.				
<b>VOSSI GROUP OY</b>	www.vossi.fi	Finland	ADDITIVE MANUFACTURING (rapid prototyping and manufacturing, reverse engineering)   ARTIFICIAL VISION to control, inspect, track production; manufacturing and assembly automation, image processing   CAD - CAE - CAM for design and mechanical/electronic manufacturing   EQUIPMENTS - SENSOR SYSTEMS to control and supervise manufacturing and automation processes, to improve quality and govern processes; actuators for micro-positioning, high.tech electronic boards   LASER for controls, surface metrology, artificial vision, iper spectrum imaging, vibrometrology, analysis and characterization of materials   MACHINE TOOLS for SPECIAL MATERIALS and MULTIFUNCTION (especially for automotive and aerospace industry, titanium and alloys, composite materials, high-speed manufacturing)   MANUFACTURING SIMULATION for machine tool and manufacturing plants, to increase effectiveness, to save time, to reduce waste materials   MARKING and TRACEABILITY for the automatic identification, the traceability, the quality control   MOLDING - METAL CUTTING - WELDING (simulation to streamline processes, to overcome the technological limits, to gua		Distributor/trader (robotics - automation - engineering)				
<b>Star World co., LTD.</b>	www.starworldco.com	Korea	ACOUSTICS - STRESS - VIBRATION to measure and analyze acoustics, forces, vibration, stress parameters, etc.   CALIBRATION laboratories and innovative services for the calibration of instruments   ELECTRICAL and ELECTRONIC TESTING to test functioning and features of components, vehicles, appliances, to guarantee reliability and safety   EQUIPMENTS - SENSOR SYSTEMS to control and supervise manufacturing and automation processes, to improve quality and govern processes; actuators for micro-positioning, high.tech electronic boards   MANUFACTURING SIMULATION for machine tool and manufacturing plants, to increase effectiveness, to save time, to reduce waste materials   NANOTECHNOLOGIES - PLASMA (solutions and technologies for special applications on surfaces)   VIBROACOUSTIC SIMULATION to design comfortable and silent products		Top leader in supplier for Non-destructive Instruments (UT)	Instruments for Maintenance	Analyzer for Maintenance, Total Productivity_Maintenance	Hardware, S/W, Certifications	I'd like to find the manufacturer/Supplier for strong products/items in Italy
