

Automotive: What's on? Innovation in automotive materials

Torino – September 20th, 2018

Torino Incontra - Conference Centre / Via Nino Costa, 8

Sala Einaudi

h. 9.30 - 13.30

Conference Language: *English*

9.00 - 9.45 **Registration and Welcome Coffee**

9.45 - 10.00 **Welcome introduction**
PIEMONTE AGENCY: *Rosanna Viola* - Business Development Manager, Automotive

Conference Moderator: *Piemonte Agency/Proplast*

10.00 - 12.30 **Innovation in automotive materials & their application**

- *Proplast* – Marco Monti – R&D Project Manager
Advances in materials for the automotive sector: Proplast success stories
- *Università di Torino* – Gabriele Ricchiardi – Director Research Center NIS
Innovative Automotive Materials at the Research Center NIS of the University of Turin
- *Politecnico di Torino* – Monica Ferraris, Professor, Department of Applied Science and Technology
Advanced Joining Technology Centre (J-Tech@polito)
- *Politecnico di Torino* – Beatrice Lerma, Assistant Professor in Design
MATto materials library: the sensory nature of the products
- *Engel* – Matteo Terragni, Managing Director
Lightweight plastic technologies to support weight saving for the automotive industry
- *Gebauer & Griller* – Bernhard Mayer/Jakob Manhart, Component Management
Aluminum application in battery cables for weight and cost reduction
- *ITT* – Agustì Sin Xicola, R&D, Product and Process Innovation Manager
Future trends for Friction Materials

Q&A

12.30 - 13.30 *Networking Lunch*

13.30 - 17.00 **B2B sessions** - Automotive Project Members & Key Players
